RE: Partial Bond Release for Bown Stone's Desert Sienna Quarry; T. 21 S., R. 8 E., Sec 6

Dear Mr. Western:

This is to follow-up the September 3rd, 2013 conversation between you and Ahmed Mohsen, Associate Field Manager. The Bureau of Land Management (BLM) inspected the reclamation efforts for the Bown Stone Products Inc., Desert Sienna Quarry (DSQ) operation under Plan of Operations UTU-79570 in Emery County, Utah, on August 20, 2013.

Earthwork reclamation efforts were examined for the disturbed areas. The surface reshaping and re-contouring was adequately completed. If seeding is timely conducted, plant growth should be established by next spring.

I recommend a partial bond release for the entire project for the completed earthwork. A revegetation bond (\$6,000) should remain until plant growth meets reclamation standards.

If you have any questions, please contact Ahmed Mohsen at (435) 636-3637.

Sincerely,

Patricia A. Clabaugh
Field Manager
